PRODUCT CHARACTERISTICS

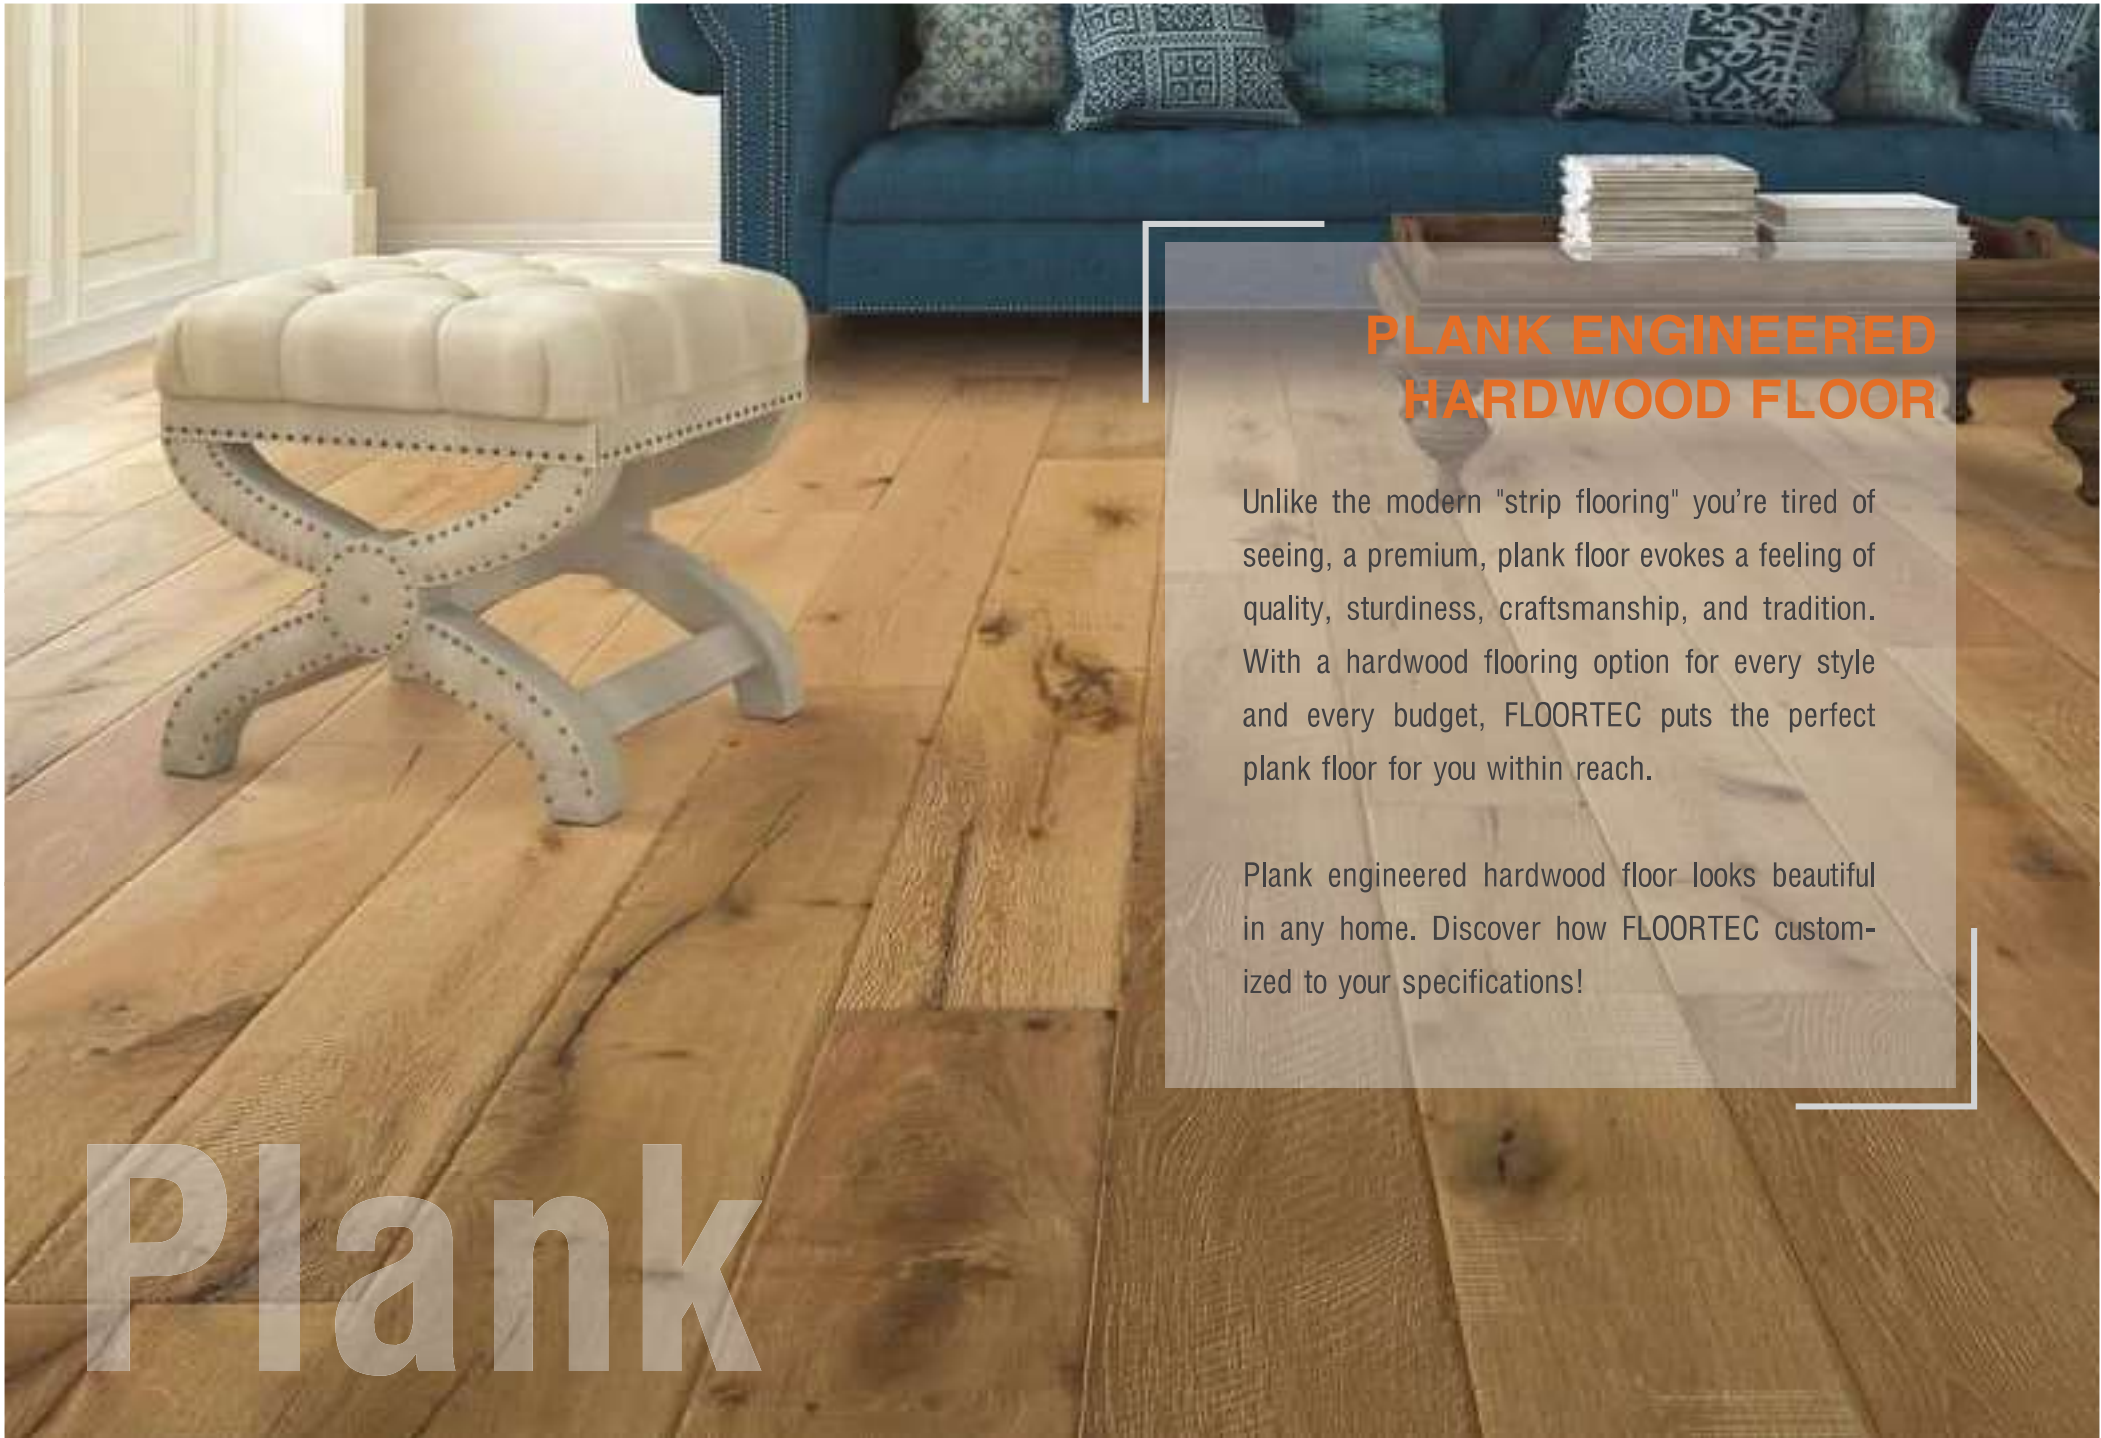

Construction	Boards are constructed in multi layers or 3 layers in order to minimize expansion and contraction within the floorboard. The direction of the fibers within each layer is oriented at right angles to the adjacent layer.
Lock System	T&G Technology
Top Layer	The top layer is made of select hardwood and is from 2.0 to 6.0mm in thickness. This allows resanding and refinishing at least twice
Surface Finish	The surface is pre-finished with several layers of UV hardened acrylic lacquer or UV oil or oil. All is free from formaldehyde and Solvents.
Moisture Content	Average moisture content of delivery is approximately 10±2%
Insects	The boards are delivered free of insects, woodworms, etc. This is secured by the process temperatures
Installation	Glue down/ Nail down/ Floating.
Chemicals and Stains	Resists most household stains for up to 24 hours
Colour Change	Wood is a natural product and changes colour with time when exposed to light
Subfloor Requirement	The subfloor must be dry, clean, level out, and solid

COLOUR RANGE

PLANK ENGINEERED HARDWOOD FLOOR

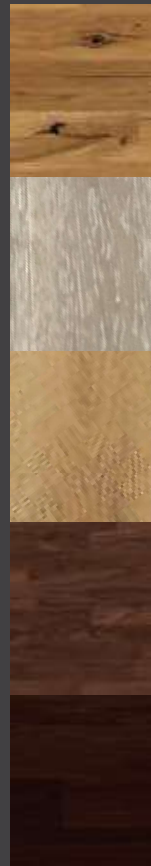

Unlike the modern "strip flooring" you're tired of seeing, a premium, plank floor evokes a feeling of quality, sturdiness, craftsmanship, and tradition. With a hardwood flooring option for every style and every budget, FLOORTEC puts the perfect plank floor for you within reach.

Plank engineered hardwood floor looks beautiful in any home. Discover how FLOORTEC customized to your specifications!

HERRINGBONE PARTERN

Herringbone is an eye-catching flooring pattern that makes your floor stand out. A timeless and classic flooring pattern that gets its name from the pattern of a fish skeleton and creates a classic or modern atmosphere, depending on your style.

- HF1 size: 90 x 600 mm
- HF2 size: 120 x 900 mm

PARTERN

A modern take on classic patterns, Chevron collection is inspired by the richness and delicacy of Roman architecture. An exclusive design with bevelled edges mastered to perfection by combining the natural color variations of nature and the brushed surface. Chevron is an inverted V-pattern with each side meeting at a point without interruption, resulting in a beautiful zig-zag design.

CHECKERBOARD PARQUET

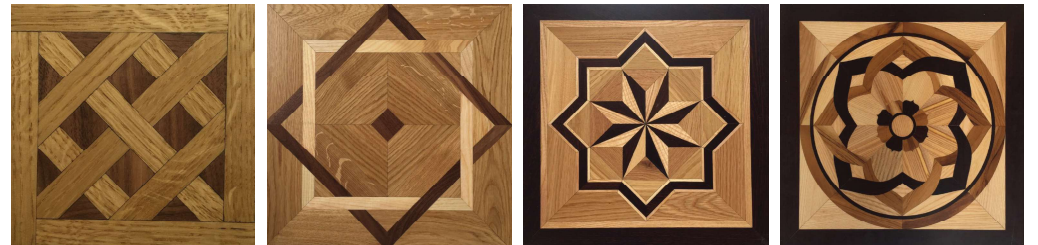

Parquet floors are a geometric mosaic of wood pieces used for decorating. The typical pattern of parquet flooring at that time, shown below, looks like a wood checker board.

CHECKERBOARD PARQUET

• CBPF size: 500 x 500 mm
